Stunts Enacted at Reunion of Rainbow Veterans

PARADE FEATURES PROGRAM

Banquets to be Held at Indianapolis Tonight

INDIANAPOLIS — (Associated Press) — The annual parade following an address by General John J Pershing, with automobile races at the Indianapolis Motor Speedway later in the day and banquets in the evening, featured today's activities of the fifth annual reunion of the Rainbow Division Veterans' Association which will close Sunday.

Veterans today were recalling that five years ago tonight the last great offensive of the Germans was opened on the plains of Champagne, where the Rainbow division was stationed as a part of the Fourth army, which ended in a victory that turned the tide of the great war in favor of the allies. It was to this impending battle that General Henri Gouraud, commander of the Fourth army, and now a guest of honor with General Pershing of the Rainbow veterans, referred to in his order of July 7, 1918, which concluded

DOUGHBOYS' BYWORDS

"For this reason your general admonishes you that you will break up the attack and it will be a beautiful day for France," and gave the American doughboys one of their favorite bywords, "a beautiful day."

It was recalled that information gathered from German prisoners brought in by a French raiding party showed that the German attack was to start at dawn on July 15—

MILE AND HALF OF HOMES WRECKED

Mining Centers in Idaho Are Swept by Flames

LOSS PUT AT $1,500,000

Whole Hillside is Still Mass of Fire and Smoke

WALLACE, Idaho — (Associated Press) — Misery stalks today in the little towns of Burke and Mace, mining centers seven miles east of here, after a devastating fire starting about one o'clock yesterday afternoon and sweeping its way thru nearly a mile and a half of homes, stores and mining works. At midnight last night no death had been reported but the entire town of Burke was destroyed and virtually every home in ruins. The loss is put at $1,500,000.

Mace, adjoining Burke on the west, suffered less seriously, the flames having been fanned by a west wind away from the conflagration's starting place

BIGGEST HOIST DESTROYED

About a thousand persons are said to be homeless.

It was announced by officials of the Hercules Mining Company that the Hecla surface works were destroyed tho the Hercules plant had been saved. Loss to the Hecla company is estimated by local mining men at between $750,000 and $1,000,000. The electric hoist of

"GET SOME CLOTHES ON," EDICT ISSUED TO GIRLS

WHITE PLAINS, N. Y.—An edict against sleeveless dresses, sheer materials in other parts of gowns and other evidence of scantiness in apparel of feminine employes has been employed by J. Crowford Stevens, president of the Westchester Title and Trust Company.

He revealed today that he had sent one girl home to "get some clothes on" Then he issued an ultimatum in the form of a note in each pay envelope. Each of the 80 girls was told to either dress in a manner becoming to a business office or "get out."

WOMAN FREED OF MURDER CHARGE

New Jersey Acquitted Twice in Three Weeks

NEWARK, N. J. — (Associated Press) — A supreme court jury returned a verdict of not guilty against Mrs. Mary F. Creighton last night and for the second time in three weeks, she was acquitted of a charge of murder.

After standing as co-defendant with her husband on a charge of poisoning her 19 year old brother, Charles Avery, and being acquitted on June 22, Mrs. Creighton was placed on trial alone for the death of Mrs. Annie Creighton, her mother-in-law.

A third indictment is pending against Mrs. Creighton. It charges her with attempting to obtain merchandise from a Newark department store under false pretenses.

While Police Search for Masker Homes Are Entered

HALLORANS SUFFER LOSS

Morning Robber Rifles Pockets And Invades Icebox

Lima's Mystery Man dressed in woman's clothes decided to take another walk Friday night and while police in an automobile were searching for the weird figure in one section of the city, the desk sergeant at police headquarters was busy receiving calls from various sections of the city regarding mysterious prowlers.

One house was entered and robbed, in another house two sewing baskets moved mysteriously from the living room onto the back porch, in another house electric lights popped on themselves and in yet another house a woman reported to police she saw a burly colored man peeping into her room.

And still the mysterious man in woman's garb has so far eluded the diligent efforts of the police

Police are now asking themselves the question, "is this mysterious person a man of many disguises, capable of changing his make-up while still patrolling the streets, going even so far as to change the color of his skin, a sort of modern Raffles, or are there many burglars

MOTOR CAR COMPANY HEAD IS SUED FOR $500,000

CLEVELAND—(Associated Press)—Disappointment over a decline in the price of the stock of Peerless Motor Car Company is believed by Richard H. Collins, president of the Peerless Motor Car Company, named as a defendant in a suit filed here yesterday to recover upward of $500,000 from Collins. A second suit filed against the other officers and directors of the Peerless company demand cancellation of an alleged contract to pay Collins a bonus of $65 a car besides a salary of $150,000 yearly.

6 CONVICTS FIGHT TO FREEDOM

Daring Escape from Pennsylvania Penitentiary Made

PHILADELPHIA. — (Associated Press)—Six convicts escaped from the Eastern State penitentiary today after beating a guard. They escaped over a wall, held up a motor truck and fled in the direction of Fairmount Park. All were said to be armed.

The escape was one of the most daring in the long history of the institution. A woman living on Cynthian-ave, which bounds the eastern side of the institution, was the first person on the outside to see the men. They appeared on the top of the forty foot wall and lowered two thin ropes. One, it was found later, was about the thickness of a clothes line but much stronger, the other was made of a variety of bed sheets, torn shirts and other scrap. The men appeared to be calm but lowered themselves swiftly.

COUPLE JAILED AT DAYTON

Hollywood Man and Niece Taken by Federal Agents

DAYTON.—(Associated Press)—In default of bond of $15,000 each, Don Putnam, alias Osborn and his niece, Rose Putnam, alias Osborn, who were arrested in Springfield late Friday for an alleged attempt to blackmail $100,000 from John L. Bushnell, president of the First National Bank at Springfield, were confined in the Montgomery-co jail here this morning.

Both were arraigned before United States Commissioner Carl Lenz Friday night, waived preliminary hearing and were bound over to the federal grand jury on charges of attempting to impersonate federal officers.

$10,000 OBTAINED

The pair who were arrested are said to have come from Hollywood, Calif., arriving in Springfield Sunday evening. They are said to have gone to Bushnell's place of residence Monday and demanded $100,000 from him with a threat of killing if the demand was refused. They posed as federal agents, it is claimed, and threatened arrest on a

Delegation of Citizens Calls on County Commissioners

"PUBLIC SUFFERS," CLAIM

Neglected County Roads Imperil Lives of Travelers

Developments in Allen-co's road repair war centering around Surveyor Toy and County Kommish are breaking fast and furious at Allen-co courthouse. Outstanding happenings are:

Demands by a delegation of Spencerville citizens for immediate improvement of the Lima-Spencerville inter-county highway.

Placing of the blame of lack of action on Surveyor Toy by Commissioner Gray.

Agreement of commissioners to re-advertise for bids for improvement of the road in question.

Citizens to present resolution to Toy demanding revised estimates of cost of improvement.

"We want immediate action," R. E. Neidthardt, president of Spencerville Progressive club and leader of the delegation of 25 citizens, stated

"The war between Surveyor Toy and the commissioner's office," Neidthardt stated, "has caused a muddle and we are the ones to suffer!"

HOLD CONFERENCE

The delegation of Spencerville citizens went into conference with county commissioners about 3 p. m. Friday. Surveyor Toy was not present.

The question involved is the improvement of approximately 4,500

Anaxagoras Invented The Hunger Strike

(As Told by GLEN C. WEBB)

THIS Guy, Anaxagoras, is another old timer; a B. C. Greek, who did something worth while---Look him up.

You will find among other things that he didn't make his philosophy pay, and decided to starve himself to death. He kept at it about a week, then changed his mind. What bothered his old gray head was that self-turture effected his brain and he could not think properly.

It was alright for his flesh to waste away, or for his blood to dry up and his bones to get brittle. But when it came to his mentality being disturbed, Anaxagoras decided that was carrying the joke too far.

Turning to a friend, he said--"Those who have occasion for lamp, supply it with oil." And he began to take a little nourishment. Later on when he had a spare moment to meditate about his escapade, he remarked, "My offense was not my own, alone. It seemed I had made it an offense to all my loved ones and friends."

Plutarch unfortunately does not finish the incident --- The inference is fairly plain, however, that Anaxagoras reasoned that he ought to leave his family and friends a greater heritage than a record for starvation.

Many men live in opulence today and die in penury tomorrow. Don't be an Anaxagoras---Life Insurance will provide against an offense to your loved ones.

We'll sell you some Sureness---Life Insurance or any other kind of Insurance we sell you. We'll even insure you the Sunshine for the morrow. Insure you against the rain, the cloudy days---more truth than fiction here. Sureness and Protection against lurking ill fate makes the pathway of life an easy road and gives us spirit, makes us resistless, energetic and strong for living.

In the days of Anaxagoras they couldn't buy "SURENESS"---they had to fight for it---But you, in this wonder-age can buy "SURENESS."

Sureness is dealt in by the Glen C. Webb organization and if you are skeptical of this "SURENESS"---come to us. Show us, tell us what you want to be Sure about and we will impart to you the gospel of that little word---sure---that 'tremendous trifle.' Just come to us or write---think of the tremendous possibilities with which this simple proposition is fraught.

JUMP IN PRICES IS EXPECTED

Prospects Point to Advance in Fall, Forbes Says

SLUMP IDEAS EXAGGERATED

Decline for Past Six Months Shown to be Mild

BY B. C. FORBES

NEW YORK — (Special) — Will prices rise or fall between now and the end of the year?

Nobody can pretend to foretell with certainty. But the prospects are that, if all parties co-operate to bring about good business, prices will advance in the fall rather than decline.

* * *

So much has been written and said about falling prices of late that the public has exaggerated ideas of just how far prices have dropped. These exaggerated ideas are certain to be intensified by the latest spectacular break in wheat, as the front pages of the newspapers have been blazoning big headlines reading, "Dollar wheat," "Wheat drops below dollar at Chicago," "Wheat prices below cost of production," etc.

* * *

Now, just where do prices stand?

How do they compare with the peak prices registered at the height of the after-the-war boom?

How do they compare with the low level touched during the subsequent depression?

How do they compare with prices of a year ago?

How do prices at the opening of the present month compare with the prices ruling at the beginning of the year?

* * *

Prices in May, 1920, touched the high-water mark of 3¼ times the average.

By June, 1921, they were back within 15 per cent of the 1913 level.

On July 1st last year prices stood at 131½, or less than one-third above the 1913 average, which, in all these calculations, was put at 100.

By January 1st, of this year, prices had touched 149.

* * *

At the opening of the present month the average was a shade under 142.

This shows a decline of 7 points during the present year, an advance of 11 points as compared with a year ago, an advance of 27 points over the low point touched after the boom, but a drop of 83 points from the after-the-war maximum, reached in May, 1920.

* * *

It will thus be seen from these Bradstreet compilations that the decline during the last six months has been mild. As a matter of fact, prices today are well above what they were at the beginning of last fall.

* * *

According to Irving Fisher's weekly index number, prices have receded during the last three months just about as much as they advanced during the first three months of 1923.

* * *

True, the tendency during June was downwards. Mr. Fisher computed the purchasing power of the dollar in the first week of June at 62½ cents as compared with its purchasing power in 1913. In the fourth week of June the dollar's purchasing power was reckoned by him at 64½ cents.

* * *

And the trend since the first of this month has continued downwards.

* * *

Much of the recent hesitancy in placing contracts has been due to a widespread feeling that prices are going to keep on going down and down during coming months. Business men are very much like those who dabble in the stock market. When quotations are rising, the feeling is that stocks will continue to go up and up. Then when a sharp break occurs, the rank and file conclude that quotations will go lower and lower.

But the attitude of financial leaders is quite different. Their habit is to sell out when quotations are booming and to buy heavily after quotations have collapsed.

* * *

It is more than possible that those business men and business concerns that are acting on the assumption that commodity prices will continue month after month sinking to lower and still lower levels, will find that they were taking a short sighted view.

* * *

The Harvard Economic Research Bureau predicts better business and better prices during the current half-year. Irving Fisher—Yale's authority—feels exactly the same way. And this view is shared by quite a few other experienced economists.

* * *

Business men would do well to consider these fundamental facts. Stocks thruout the country admittedly are light. New ordering has been severely restricted during the last three months. Meanwhile, however, consumption has been going on practically unabated. Moreover, the purchasing power of nearly all wage earners has been increasing and is today greater than ever before in the nation's history.

Against this must be set the diminished purchasing power of wheat growers. But the value of our cotton crop is not so much less than the value of our wheat crop year after year, and cotton growers are enjoying and promise to continue to enjoy, very satisfactory purchasing power. Then, too, all agricultural prices are not as low as wheat prices.

* * *

It is not logical to reason that when depleted stocks have to be replenished in the fall, the effect will be to force prices up at least a little, especially as labor costs will be high?

Lima Kids Take In Curcus Joys

Approximately 50 children of the Kiwanis-Junior Red Cross Fresh Air camp and crippled proteges of the Rotary club attended the circus Saturday afternoon as the guests of the Gentry-Patterson management.

Children from the camp rode to the circus in trucks furnished by the Gramm-Bernstein Co. and the Lima Automobile club had charge of the transportation of the crippled children.

Residents of the Children's Home were also invited to attend the circus but several days ago measles appeared in the home, quarantine was imposed and the party was ruined.

3 GERMANS GIVEN DEATH SENTENCE

Penalty is Imposed by Belgian Court-Martial

CONVICTED OF SABOTAGE

Britain May Request U S. Participation in Reparations Board

AIX LA CHAPELLE — (Associated Press) — A Belgian court-martialed here today imposed the death penalty upon three Germans—Countt von Keller, Ludwig and Kingender, and life imprisonment at hard labor upon a fourth, Lorber, on conviction of sabotage.

* * *

LONDON — (Associated Press) —In the drafting of the British reply to the German reparations note reference to American participation in the suggested commisson for appraising Germany's capacity to pay as possible, says the British press.

While the government has given no hint as to the contents of its forthcoming note some unoffical sources profess to have a certain amount of information on the subject. The Daily Telegraph says "In order to overcome jurisdictional objections which might otherwise be expected from Paris, it is proposed that the commisson shall operate within the framework of the Versailles treaty by acting as a committee to the reparations commission. All the allies could welcome the presence on the committee, and preferably in the chair, of an eminent American jurist such as William Howard Taft or Elihu Root, or an eminent banker of economist from Wall Street.

The writer, however, is confident that American participation would be withheld if discusssion of the allied debts were on the committee's agenda.

FRENCH ATTITUDE

The Daily Mail learns that France is now perhaps somewhat more favorably inclined towards the proposal than heretofore, but that she would insist on certain conditions. One of these would be that the suggested commisison be subordinate to the reparation body. Some of the commentators suggest that the British government would be inclined to concede this point.

The assertion heard in some quarters that Prime Minister Baldwin's statement on Thursday has created a division in the Conservative party and that the die hard section is breaking away from the government, does not receive general support from the press.

FOUR STUDENTS, HELD IN GIRL'S DEATH, RELEASED

CHICAGO — Four University of Chicago students and graduates who were in the rooming house from which Miss Elsie Campbell, Des Moines Ia., leaped to death, are at liberty on bail under disorderly conduct charges today.

Deputy Coroner J. J. Dedrich, said the charges were brought so the youths might be available for questioning during an investigation.

Police today reiterated belief that the girl committed suicide because she was despondent. She leaped from a second story window after disrobing. She was taken to the house by a student, police said Harry Scofield, Kansas City, admitted.

Scofield, Clyde Griffin, J. J. Spencer and David Lomberg are under bail after being held in jail all day yesterday.

HOSPITAL TENT IS GIFT TO KIWANIS KIDS CAMP

A large English hospital tent, the gift of Mack P. Colt to the Junior Red Cross society, was erected Saturday at the Kiwanis-Red Cross Fresh Air camp.

The tent wil be used for recreation by children who are unable to join the more athletic events of other children of camp, Mrs. F. E. Mead stated.

Members of the camp are enjoying the outing, Mrs Mead stated, and not a case of sickness has been reported. Dr. A. C. Adams and Dr. Oliver Steiner, camp physicians, make regular visits to the camp.

Records are maintained of the health progress of each child and accurate accounts will determine at the end of the camping period, the exact improvement in each child, Mrs. Mead said.

KIWANIS PROGRAM

Delphos Kiwanians will hear an address by D. J. Gunsett, Van Wert hardware man, at the regular luncheon Monday. A special musical program will be arranged.

MIDDLE WEST MAY OPPOSE SMITH

Democratic Leaders Confer on Presidential Candidate

MEET HELD AT FRENCH LICK

New York Governor Backed by Charles Murphy

FRENCH LICK, Ind.—(Associated Press.)—Whether Democratic leaders from the middle west will support or oppose the proposed candidacy of Governor Al Smith of New York for the nomination for the presidency at the national convention next year was expected to be developed to some extent here today.

Charles F. Murphy, Tammany Hall chieftain from New York, and a strong supporter of Governor Smith for the presidency, arrived last evening to confer with George F. Brennan, the Chicago leader and with "Tom" Taggart, boss of Indiana.

Brennan was expected to arrive here today and the trip planned to spend the week-end in conference.

NOT SO LIBERAL

Lesser political lights pointed out that the New York governor who signed the repeal of the prohibition enforcement law in this state, may not have the unanimous support of Democratic leaders from the middle west.

They declared that the central states are not as liberally inclined as New York and that the party leaders from this section may desire to support some candidate less moist.

Considerable interest is attached to the attitude Brennan holds toward the New York governor.

It is known that some leaders from the middle west are anxious to know their support to Governor Smith on a "beer and light wines" platform.

Murphy made the trip to French Lick to make a survey of the situation and it was said unofficially, to insist that Smith's name go before the convention next year, and to make friends for his candidate.

To date no definite announcement has been made by Governor Smith as to whether he will be a candidate.

PLUNGES TO DEATH FROM HOTEL WINDOW

PHILADELPHIA — Clarence B. Sweet, president of the National Lumber Company, Bluefield, W. Va., either fell or leaped to his death from a window on the fifth floor of the Bellevue-Stratford hotel here today, police reported.

HARDING IN HEART OF WONDERLAND

Language of Description is Exhausted by the President

ON BOARD HARDING'S SPECIAL TRAIN, ALASKA RAILROAD — (Associated Press) — The language of description was exhausted by President Harding, Mrs. Harding and members of their party today as their special train carried them over this government-built railroad into the heart of Alaska, which the president has termed "America's Wonderland."

They have passed a succession of beautiful mountain lakes, valley and glacier scenes, with mountains raisng their lofty snow-capped peaks above the clouds, lakes set like emeralds among those mountains, valley green with jungle-like vegtation and great blue glaciers creeping down the slope.

Passing two stations recalling previous national administrations, Woodrow Wilson and Roosevelt, the train proceeded along beautiful Kenai Lake several miles before arriving at the summit of Chugach mountains.

Dinner was had at a station named Tunnel and with the sun still high in the sky, altho it was 8 o'clock, the party traveled for miles along Cook Inlet to Anchorage, the third largest city in Alaska.

Here a two hour stop was made. The president greeted citizens and was shown about the town, which was base of operations in construction of the railroad and has become the center of trade in coal from the Chickaloon and Matanuska fields, to the east of the line. These fields the president saw before the train was parked for the night.

The whole trip overland is being made by daylight, which lasts almost 24 hours a day at this time of year here.

The president let it be known that he plans to stop at St. Thomas, Virgin Islands, on his way from Panama to New York, when he returns to Washington from his tour.

PLAN HARDING RECEPTION

VANCOUVER, B. C. — (Associated Press) — Plans for the reception of President Harding July 26 are nearly complete. Colonel E. J. Chambers, gentleman usher of the Black Rod, has left Ottawa to assume charge.

An address of welcome signed on behalf of Canada by Premier King has been handsomely embossed. It is to be read to President Harding by J. H. King, minister of public works. On arrival of the Harding party a reception will be given in a military and naval setting. A huge popular lunch will follow. At a formal dinner at a hotel the government officials wil be hosts.

PARENTS ACCUSED OF TRYING TO SELL BABY

CLEVELAND — The parents of a six months old baby girl were in custody today following allegations that they had attempted to sell their child for $5,000.

According to information given juvenile court authorities, Dorothy Ann's parents had been trying to sell the child. Two detectives were sent to investigate. The officers declare they were offered the child at a price of $5,000, under the stipulation they would provide her wit a good home.

"We feel that there are people who can give our baby a better home than we can. We are very much in need of money now," the father is reported as telling the officers.

The father slept at central police station last night and the babe and her mother at the detention home.

ELEVATOR MANAGERS MEET

Dr. George Lasher Will Explain Commodity Purchases

That 36 counties of the state have started a force collection of dues was the statement of F. S. Glasgow of the state federation, at the monthly conference of Farm agents at Faurot park Friday.

Suits have been successfully instituted for the collection of yearly Farm bureau dues as provided for in the membership contracts, he declared. The membership contracts provide for yearly payments of $10. In many instances the farmer becomes careless in the matter of payment, loses interest, and considers failure to pay the end of the agreement.

Many county organizations, thru the influence of paid up members, are instituting civil action for fulfilment of contract and have won the case in every instance, Glasgow declared.

Necessity of adhering to the terms of the membership contract were pointed out. The state and national budgets are formed on county estimates of income.

When the county fails to collect its budget it disrupts the whole scheme of administration, Glasgow said.

Belmont and Defiance, counties have been especially active in the prosecution of suits in this connection, he announced.

FINDINGS RETURNED AGAINST OFFICIALS

COLUMBUS — Findings for more than $4,000 were returned against officials of the village of Newton, near Cincinnati, today in a report of State Examiner C. J. Smith to State Auditor Tracy.

More than $1,700 of this amount is found against Police Justice James Myers, for fees collected and not accounted for. Of the amount found against Myers, $1,403 is due the state for fees collected in liquor cases and not accounted for by the justice.

Findings for more than $1,600 are returned against deputy marshals and detectives for fees collected illegally in liquor cases. The examiner holds only the marshal is entitled to fees and fees paid to deputies must be returned. The deputies were not paid a salary but depended on fees collected from liquor law violators. Such fees were paid by both Justice Myers and Mayor Ralph S. Kinney.

200 BOATS SEIZED

Taken in Raid by Dry Ggents at Detroit

DETROIT — (Associated Press) —Federal prohibition agents, assisted by representatives of the treasury department, last night and early today seized 200 motor boats off Ecorse, Wyandotte and Trenton in the down river district.

Four More Petitions Expected by Saturday Noon

With Saturday noon announced as the dead line for filing of petitions of candidacy, three aspirants for city commissioner office Saturday morning filed their papers at the board of elections.

Those filed are: George V. Guyton, 219 N. College-st, sewer inspector; H. L. Breckenridge, 1130 W. Market-st, and John A. Harley, 222 W. North-st, present commissioners.

Petitions of four other avowed candidates are expected to be entered Saturday, it was announced at the board of elections.

295 APPLICANTS FOR ADMISSION TO BAR FAIL

COLUMBUS — Of 494 applicants who took the June examination for admission to the bar, but 199 passed, according to the list of successful applicants made public last night by Seba Miller, clerk of the supreme court. Failure of 295 of the applicants set a new high record, Miller said.

The highest grade of 87.3 went to Anthony P. Conlon, a student of St. Xavier's College, Cincinnati; Clyde M. Abbott Columbus, Ohio State University, was second with a grade of 87 and Wade DeWoody, Akron, for 18 years a student in a law office, was third with 85.

Seven women were among those who passed the examination.

The Present and The Future

YOUR MONEY SHOULD BE SO PLACED THAT IT WILL BE SAFE BOTH TODAY AND TOMORROW.

In the present period of unusual business activity and high prices in all lines, it is more necessary than ever to be careful in investing money. Five per cent interest is a liberal return where Safety is absolute.

Among the financial institutions of Lima we are known as conducting a conservative business and paying five per cent on deposits. We place the additional profits into a adequate reserve, now more than $92,000.00, as a further protection for our depositors.

We propose to continue these policies and upon the basis of Safety we seek your account.

HEALTH SERVICE CURES LEPERS

Treatment by Chaulmoogra Oil Restores Victims to Health

FEW SUFFER RELAPSE

Government Segregation Leads to Frequent Recovery

WASHINGTON.—(United Press.)—Virtual restoration to health from the ravaging and dreaded disease leprosy, which yearly tortures hundreds of unfortunates who contract the ailment, by treatments with chaulmoogra oil and its derivatives, is now claimed by the U. S. Public Health Service.

So successful have the treatments been, that during the last ten years (1912 to 1922,) the Public Health Service hospitals at Kalihi, near Honolulu, and at the Molokaia Islands, have paroled a considerable percentage of the leprosy victims segregated there. The sufferers of the disease after treatment with the oil, "are not a menace to public health" and are permitted to leave the institutions, according to the Public Health Service. They are, however, required to report at certain intervals, which vary with the individual case, for examination.

A FEW HAVE RELAPSE

The Public Health Service reports that about 13 per cent of those paroled have suffered a relapse and were returned to the hospitals, while one-fourth of that number were later paroled for the second time, following further treatment with chaulmoogra oil. In all, 242 lepers were paroled; 31 relapsed and seven of these were later paroled again. Ten patients were completely released from parole. About 70 per cent of those paroled were in segregation less than two years.

"The chance of arresting the disease," says the Public Health Service, "decreases with the length of time that it has been allowed to go without treatment, unless this period was seven or more years. Apparently, patients who survive without treatment for seven years possess powers of resistance that slightly increases their chances for marked improvements under the oil treatment."

The parole system was begun in 1912 and, according to reports, has worked admirably since. Persons paroled have praised the treatment rendered and the conditions afforded at the hospitals.

VICTIMS HOPEFUL

"The mere fact that they have been released," says the Public Health Service, "has shown that segregation might lead to cure and not to lifelong confinement as it almost invariably did previous to 1912. As a consequence, many lepers, instead of concealing the disease up to the last possible moment, and also spreading it thruout the community, are now surrendering of their own accord and taking treatment.

"The early surrender and the early treatment hasten the degree of improvement that will secure parole and later, perhaps, complete release," the statement explained.

CHICAGO WOMAN WILL BE HANGED OCTOBER 12

CHICAGO—Signora Sabella Nitti-Crudelle, first white woman sentenced to hang in Chicago, was denied a new trial today by Judge Joseph B. David and her execution set for October 12, Columbus Day.

Peter Crudelle, the woman's husband, convicted as a co-defendant was also denied a new trial and will be hanged the same day.

The couple was convicted of the "hammer murder" of Frank Nitti, the condemned woman's first husband.

Mrs Nitti-Crudelle's own son took the witness stand and accused his mother and step-father of the deed.

NEWSBOYS PROMISED REAL TIME AT BOY SCOUT CAMP

Lima newsboys are promised a real live time Sunday at the Boy Scouts' camp on Lake St. Mary's.

Plenty of enjoyment with real surprises in store, starting at noon with an afternoon entertainment and topped off with a "camp feed" at night.

Arrangements for transportation of the boys to the camp has been made with Lima Automobile club. Boys are to assemble at the automobile headquarters at noon.

A number of automobiles are needed for the kiddies ,it was announced at the auto headquarters, and members are asked to donate their machines for the occasion.

HERE'S FUN

A lazy sun poured regular circus day heat into the public square as men, women and children milled impatiently, awaiting the arrival of the brass band, clowns and calliope.

Business was suspended in the down town section while the Gentry Bros.-Patterson circus parade went by. It was a regular parade, from clown to calliope.

Little girls from the farm with hair pressed tightly back from sunburned foreheads peered anxiously up and down the streets and sighed luxuriously as the first clown appeared upon the scene.

White headed grandfathers and grandmothers edged furtively forward to obtain a closer view, as did father, mother and the children.

The streets were deserted Saturday afternoon, the usual crowd having gone, bag and baggage, to the big tent at Broadway and Vine to do honor to the famous American institution—the circus.

SAFETY LESSONS FOR SCHOOLS

Professor Urges Instruction in Avoidance of Accidents

NEW HAVEN—(Associated Press)—Safety instruction in the public schools which teaches children to avoid accidents in street traffic is as necessary a part of education as the three "R's" in this day of complex civilization, Dr. E. George Payne, professor of education at New York University, told the convention of School Superintendents and Principals of Connecticut in session at Yale University today.

Eighty thousand men, women and children met death by accident in the United States during the last year, the speaker said. Of this number 49,000, a life every ten minutes, might have been saved by the general application of safety instruction in schools. "The reason for this needless sacrifice is that the development of modern civilization has been so rapid our intelligence has not kept up with it.

"Installation of safety instruction would require but inconsequential changes in present public school curriculums," Dr. Payne declared. "The method simply assumes that the teacher utilize accident situations to give purpose to the school work. In writing exercises, instead of writing the familiar 'Now is the time for all good men to come to the aid of the party' we can write 'In crossing the streets look first to the left and then to the right.'"

DIES SUDDENLY

Martin Ihler, 57, of New Bremen, agent for the Grand Union Tea Co., died suddenly Saturday morning while delivering an order at the Grand Union Tea Store, 217 W. High-st. He became ill at 10:30 a. m. and died fifteen minutes later. Death was due to angina pectoris. The body was removed to his home in New Bremen where funeral services and burial will take place.

THOMAS RICHARDS DIES AT HOME OF HIS PARENTS

Thomas H. Richards, 30, died Friday night at the home of his parents, Mr. and Mrs. John Richards, of Gomer, after an illness of several years. He was well known in Lima having been employed at the offices of the Lima Locomotive Works for a number of years.

Funeral services will be held Sunday at 1.30 p. m. at the Congregational church. Rev. Samuel Whilding and Rev. M. M. Pettit will officiate. Interment in Gomer cemetery.

LAST OF QUEEN'S ESTATE GOES TO HONOLULU MUSEUM

HONOLULU—The Bishop museum here will be the sole beneficiary of the remaining estate of the late Queen Liliuokalani, consisting now in the main of priceless relics, crown jewels, crests, silverware, decorations, and insignia of royalty, according to the trustees.

Queen Liliuokalani, last of the reigning monarchs of Hawaii, died in 1917. Four suits have been filed to break her will, the last having been withdrawn within the past month. Most of the persons to whom she made bequests, including John Aimoku Dominis and Joseph Aea, her wards, and Prince Jonah Kuhio Kalanianaole, have died, and the articles bequeathed to them will be turned over to the Bishop museum. It will be six months before the estate can be distributed, according to the executor, Colonel C. P. Iaukea, who was chamberlain to the queen.

ARREST VETERAN

W. J. Croddy, 31, an ex-service man, was arrested by police at noon Saturday and held at police headquarters on suspicion. When arrested Croddy had $873.10 in his possession.

Croddy's arrest is the result of the refusal of the city to issue a license permitting him to sell toy whips on the streets. Croddy exhibited a state license which provides that cities issuing city licenses shall not charge for them.

After refusal of the city to issue the license, Croddy said he would sell his articles and if arrested would make a test case out of the matter.

PREPARING FOOD.

Don't cook too much at a time, particularly in the summer when food is not easily kept.

LINOLEUM.

Linoleum should be washed with soap and water and rinsed with clear water, then wiped dry. Only enough water should be used to remove the soil.

NEAT WOODWORK

In keeping your woodwork neat, remember to remove spots as soon as they appear. If dirt and grease are allowed to remain it means that they will disappear only after severe measures.

TEMPORARY PLUG.

To stop a leak until you can have the services of a plumber, mix whiting, yellow soap and a little water to a paste and cover the hole.

KITCHEN EQUIPMENT.

Keep your kitchen equipment in shape. Worn-out tools and an insufficient supply of utensils make housework much harder than it need be.

CARPET CLEANING.

After a thoro sweeping it is well to dust a carpet with a cloth wrung very dry out of clean water, or water to which a little ammonia has been added.

NEWS OF PUTNAM-CO

PLAN TO MAKE OPEN-AIR SERVICES REGULAR EVENT

Rev. P. Ross Parrish, pastor of Trinity Methodist church, has decided to make the Community Open-Air meeting held on the lawn surrounding the parsonage this summer, an event of every Sunday night during the remainder of the summer. The service will begin at 7:30 o'clock.

There will be plenty of space to park automobiles and plenty of seats for all who wish to attend. A community sing will be a feature of each meeting. Solo and duet numbers will be given.

The Rev. Samuel Huecker, pastor of Market-st Presbyterian church, Lima, will be the speaker Sunday night.

Dr. Parrish has engaged the services of the Ladies' quartette of the Missionary church, Pandora, to give the program on Sunday night, July 22.

HEARING ON JOINT DITCH DAMAGES WILL BE ASSUMED

The joint board of commissioners of Allen and Putnam-cos have not yet set the date for the hearing on compensation and damages on the Augsberger joint county ditch, which benefits Richland-tp farmers in Allen-co and Riley-tp residents in Putnam-co.

The waterway was granted at a meeting of the joint county boards held Thursday in Ottawa. A. J. Gray and John W. Thompson, of Lima, represented Allen-co commissioners.

The ditch, two miles in length, will be deepened, widened and cleaned out.

MANY GROVE FOLK WILL VACATION AT LAKESIDE

COLUMBUS GROVE—Mr. and Mrs. Henry F. Light and Mr. and Mrs. Stanley Bell have opened their summer place, "The Light House" at Lake side, where they will spend the remainder of the summer.

Lakeside will claim the vacation time of a large number of Columbus Grove people this year, who will go down for the Bible conference and the conference of the Woman's Home and Foreign missionary societies of the Methodist church.

DELPHOS NEWS

DEMOCRATS HAVE LITTLE HOPE

No Mayorality Candidatets Are in Delphos Race

Delphos Democrats are in a quandary over the August primary. Having neglected to petition for a mayoralty candidate they face the necessity of entering a "dark horse" in the race.

Names of several local men will probably be written on the primary ballots, politicians declare, for selection of a nominee to oppose either G. N. LeaSure or Eugene Metcalfe, the Republican candidates, at the fall election.

To do this requires much work of the gum shoe type. An open forum to name somebody within the party is unlikely, it is declared.

Several reasons are assigned by party leaders for failure of the Democrats to enter a candidate. J. H. Wahmhoff, veteran druggist, was popularly accepted to lead the party cause, but almost at the eleventh hour he decided not to enter. Expected resignation of Mayor J. K. Williams, who will leave in the fall for California, also had some bearing.

Tho not as widely discussed as Wahmhoff, John Altenburger, president of council, was figured in some circles as mayoralty timber. His succession to the mayoralty after the Williams resignation is certain unless he declines to accept. He again is a candidate for the Democratic nomination to the council presidency.

Efforts so far to line up a candidate have been fruitless. Each one approached, politicians say, is impressed by the seeming fruitlessness of attempting to line up the necessary eight per cent of voters to write his name on the ballots.

KRAMER IS SIGNED FOR HICKSVILLE BALL GAME

Ralph Kramer, Ottoville catcher for three years battery mate of "Smoky" Wannemacher, has been signed by the Delphos American Legion ball club and will report Sunday when the locals tackle Hicksville at Clay Field for the second time this season. Hicksville previously defeated Delphos 8 to 0.

On the following Sunday Delphos will meet the Ft. Wayne Kipps and on July 29 will play at Lima. The legionnaires have won nine and lost four games.

Lineups of the two teams for Sunday are as follows:

HICKSVILLE—Limpert or Nagel, p; Blain, c; Johnson, ss; S. Smith, 1b; P. Smith, 2b; Baker, 3b; C. Limpert, lf; James, cf; Ferris, rf.

DELPHOS—Tilton, p; Kramer, c; Imber, ss; Patrick, 1b; Brandehof, 2b; Sandquist, 3b; Ditto, lf; Remlinger, cf; Bonifas or Myers, rf.

EAGLE PICNIC WILL BE HELD AT MUNICIPAL PARK

July 29, the last Sunday in July, has been tentatively set as the date of the annual picnic of Delphos Aerie, F. O. Eagles. The city park is being considered as the place for holding the huge outing.

The date may be changed, according to Chairman W. H. Shaffer, owing to the fact that the Delphos American Legion team may play at home on that date.

A ball game between an Eagles team and a team from some nearby city will be a feature. Last year the Eagles played Celina.

SUSIE SMART'S ADVICE

Dear Miss Smart:

I am in love with a young man three years my senior and a friend of his says he loves me. I went with this young man once, but he never asked me again. How can I make him go with me? He is the first fellow I ever cared to go out with.

"ANXIOUS"

IF he never repeated the invitation, it looks as tho he either got no encouragement to repeat it or else he did not wish to continue the friendship. Perhaps, however, your manner was not as friendly as it might have been, or maybe it was too much so. Maybe one more try won't do either one of you any harm so why not invite him to your home some time and then base your future actions on how he responds to your invitations.

* * *

Dear Miss Smart:

For the last year I have been keeping company with a very nice young man, 18 years old. Recently this boy had an appointment with me, but he failed to keep it. I care for this young man very much and believe he also cares for me. Now, Miss Smart, would you kindly advise me to renew my friendship with him or not?

BLUE-EYES

Perhaps, Blue-Eyes, there was some misunderstanding about the appointment. At least I should be as frank and open about giving him a chance to explain as you would want were the blame placed on you.

* * *

Dear Miss Smart:

I have gone out with a young man twice, one of the invitations being my own and the other extended by him. He asked me if I would accompany him to two dances. I could not give him definite answer at that momena, so he promised to telephone me. Two weeks have passed and he has not called. I think of him only as one who might be a very true friend, but do not understand his acting so. Please advise me. "WAITING"

Perhaps your friend was slightly hurt at your hesitancy in accepting his invitations. I would not hold this against him, however.

* * *

Mr. and Mrs. Henry Young of Ft. Lee N. Y. have returned to their home after visiting for some time at the home of Mr. and Mrs. J. H. Lange, E. Third-st.

* * *

Mr. and Mrs. A. A. Drolet left Friday for Kalamazoo, Mich., to visit with relatives.

PLAY DECATUR

The Delphos traveling ball club will play at Decatur, Indiana, Sunday. Manager William Walsh will use for his battery King and Wulfhorst.

PROPOSE SITE CHANGE

Proposition of holding the annual chautauqua at the city park will be submitted by Dr. D. J. Clark, head of the chautauqua committee. The attraction is dated for Delphos August 13 to 17. The committee proposes to have the Mutual Morgan bureau of Chicago furnish a swimming instructor to teach kiddies the art at the municipal pool.

SOCIETY

MISS Josephine Purtscher entertained very informally at a one o'clock luncheon at her home Saturday afternoon, as a pleasing compliment to Miss Vesta DeWitt of Harbor Springs, Mich., who is visiting at the J. J. Weadock home, Brice-av. Miss DeWitt plans to leave on Monday for her home after a several weeks' visit here. A platter basket filled with blue and yellow garden flowers made an attractive centerpiece for the luncheon table and blue and yellow predominated in the hand-painted place cards.

Guests of Miss Purtscher were Miss DeWitt, Miss Janet White, Miss Catharine Weadock, Miss Marion Cable, Miss Catharine Galvin, Miss Hope Holbster, Miss Mary Weadock and Miss Helen Sidener.

✧ ✧ ✧

Joeb Taylor of Roanoke, N. C., will arrive Sunday for a short visit at the George Taylor home, W. Market-st.

✧ ✧ ✧

Mr. and Mrs. S. G. Parks, E. Market-st, have returned from a five weeks' tour of California. They visited in Los Angeles for some time and motored from there to the Yosemite valley and other mountain resorts.

✧ ✧ ✧

A. H. Roberts and family will leave Sunday for an extended tour thru the West. Mrs. Roberts, who has been visiting relatives in Ft. Wayne, will join them in Chicago.

✧ ✧ ✧

Henry Wemmer, Jr., was host to a group of friends at dinner at the Elks' home, Friday evening. The table, laid in one of the private dining rooms of the club, had a wicker basket of garden flowers as a centrepiece. Covers were laid for eight guests.

Those enoying the informal affair, were: Miss Helen Hughes, Miss Dorothy Kahle, Miss Pauline Wemmer, Miss Virginia Rhoades of Columbus, Clair Dean, Carl Plummer, William Laughlin and the host.

MEXICO TO BUILD RAILROADS

Bids on 150 Miles Opened by Lower California Heads

WILL BE DIFFICULT TASK

First Step in Colonization and Internal Development

MEXICALI, Lower California—Bids for the construction of 150 miles of railroad thru Lower California by the National Railways of Mexico will be opened July 1, according to a announcement of Jose I. Lugo, military governor of the northern district of Lower California.

The construction of this railroad, government officials state, will make available more than 2,000,000 acres of farming lands, particularly adpted to cotton, for which water can be obtianed from the abundant flow of the Colorado River. A total of $2,000,000 has been made available for the work, and an additional $2,000,000 has been set aside in the treasury of the northern district of Lower California for future work.

DEVELOP MINERALS

This pioneering railroad construction, according to Mexican officials, is the biggest piece of constructive work since the United States built its Alaskan railroad. The conditions contended with are equal in hardships an doposition from nature, but at extremes in their variety. Cold, snows, and the conquering of mountain fastnesses prevailed in the north. This southern operation involves combat with terrific heat in the summer season, death dealing sand storms, miserable chill in other portions of the year, and at all times absence of water or living thing upon which to subsist, except at the shores of the gulf, where water fowl, fish, and shell fish abound.

DEVELOP MINERALS

In addition to opening up farming lands, government officials tsate, the construction of this railroad will make possible the development of a wonderful area of mineral lands, rich in surface showing of gold and silver, heretofore too isolated to permit of profitable operation. It will also bring within the reach of rail transportation several million acres which have been passed upon by the geologists of the Mexican government as potential oil bearing lands, carrying live oil seepage, structure, and oil sands yielding petroleum at surface tests.

The control of all potential and un-occupied oil lands in Mexico has been vested in the National Railways of Mexico by the Mexican government, on the grounds, according to an official published notice, of affording adequate fuel supplies for all of the needs of the railroad lines in Mexico.

WATER TERMINUS

The terminus of the new railroad will be at Port Gonzaes, 150 miles south of Mexicali. This port has 18 feet of water at the shore line, and ships of large tonnage are expected to cerry from this port the products from the Imperial Valley.

The railroad enterprise is the first step in a program of colonization and development worked out by Governor Lugo, with the approval of President Obregon. The details of the plans being carried out include the establishment of gins and compress at Gonzales for the handling of the cotton grown on the new lands.

BOY NEAR DEATH

Walter Leahy Suffers Injury When Struck by Auto

Walter Leahy, 7, son of Timothy Leahy, is in a critical condition at St. Rita's hospital as a result of having been struck by an automobile driven by Paul Kronberg, 1041 N. McDonel-st, in front of his home at 11:15 a. m. Saturday.

The boy, who has remained unconscious since the accident, is suffering from a large gash over his left eye and the right side of his head is also badly injured.

Leahy was standing by the curbing in front of his home and started across the street. Kronberg was driving toward the boy and sounded his horn. Leahy, who was frightened by the sound of the horn, stopped short and then started to run across the street but was hit by the front of the car.

He was rushed to the hospital in a private car.

My First Child
Glen Allen, Alabama.—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicines without much benefit. It has relieved my pains and gives me strength. I recommend it and give you permission to use my testimonial letter."—Mrs. IDA RYE, Glen Allen, Alabama.

SHANTY DAYS

BOYS don't seem to be building shanties as much as they used to. And they're missing a lot, for the boyhood shanty looms as one of the most delightful spots in the memory of the man whose hair is white or beginning to turn gray above the ears.

The old-time shanty back yonder was our first big expression of the creative instinct. It taught us to build with our hands. It necessitated teamwork that instilled into us a sense of business organization. The community spirit was developed during the erection of the shanty and its management after completion.

The shanty was an expression of a certain period of American life. It dated from pioneer days when lads built small huts out of poles, in imitation of their father's log cabins.

Lumber is too scarce and expensive now An outlay of at least $50 would be necessary to put up a shanty that the lads of 20 or more years ago would have considered a respectable piece of work.

THE decided changes that are taking place in our civilization are most strikingly illustrated in the changed pastimes of youth. The shanty is not the only institution that is passing. That charming boyhood highway, the alley, is passing gradually, a victim of congestion and high real estate values. And the alley, where it still survives in the modern city, usuallly is only a ghasty ghost of the old-time alleys overgrown with weeds, canyoned by high board fences and littered with old iron and bones for the junkman.

The movie serial has taken the place of Nick Carter, and machine-made cigarets have displaced grapevine leaves and "Indian cigars." The old order changes. Youth concentrates on radio. It forecasts a coming generation of highly developed scientific powers, but at a fearful loss in boyhood enjoyments and pastimes.

EXPLOITERS

THE white man's rule of the east is tottering and within 50 years India, Sumatra and the Philippines will be ruling themselves. This is Captain Salisbury's impression, after touring the world for the Southwestern Museum of California.

You don't have to go around the world to learn that. If any drift of world affairs is obvious, it is that ruling other people from a remote distance is a system headed for the ash-heap. As the United States become densely populated, it steadily gets more difficult to rule it from one central headquarters, Washington. Scientific government, in the last analysis, is a local and individual problem. National and international co-operation, steadily evolve into clear-cut problems in economics, not politics.

DISCOVERY

A giant turtle, on whose back Capt. Cook carved a label in 1773, is found by Governor Pollock of America Samoa. The turtle still is waddling about, it is "blind, and when walking creaks like an oxcart."

When Cook turned the turtle loose, man was not far in advance of it in land transportation. He walked or rode beasts. Since then, man has added railroad, street car, bicycle, auto and airplane to his means of locomotion. Meantime the turtle has continued its leg work.

Uncle George will tell Rollo that this shows the vast power of the human intellect. But we'd like to have a talk with the turtle family and compare notes to learn which is happier, man or turtle. Progress is a failure unless it makes us happier.

MAGIC

BY using high exposives, government chemists turn laces and leaves of trees into iron. For instance, a leaf can be pasted to an iron bowl and, while the explosive destroys the original leaf, it is reproduced in all details as a design on the iron. This magical process enslaves molecules flying four miles a second during the explosion.

It suggests that the greatest discoveries of the next century will be microscopic. Chemistry, by the way, is the biggest field open to youth. We are in the first phase of a Laboratory Civilization.

BRYAN'S WEEKLY BIBLE TALK

JOHN THE APOSTLE

Text of Today's Bible Talk by Mr. Bryan.
(Luke 9:49-56; John 19:25-27; 1 John 4:7-8)

And John answered and said, Master, we saw one casting out devils in thy name and forbad him, because he followeth not with us.

And Jesus said unto him, Forbid him not; for he that is not against us, is for us.

And it came to pass, when the time was come that he should be received up, he steadfastly set his face to go to Jerusalem.

And sent messengers before his face, and they went, and entered into a village of the Samaritans, to make ready for him.

And they did not receive him, because his face was as tho he would go to Jerusalem.

And when his disciples James and John saw this, they said, Lord, wilt thou that we command some to come down from heaven, and consume them, even as Elias did?

But he turned, and rebuked them and said, Ye know not what manner of spirit ye are of.

For the Son of man is not come to destroy men's lives, but to save them. And they went to another village.

Now there stood by the cross of Jesus his mother and his mother's sister, Mary the wife of Cleophas, and Mary Magdalene.

When Jesus therefore saw his mother, and the disciples standing by whom he loved, he saith unto his mother, Woman, behold thy son!

Then saith he to the disciple, Behold thy mother! And from that hour that disciple took her unto his home.

* * * * *

Beloved, let us love one another, for love is of God: and every one that loveth is born of God, and knoweth God.

He that loveth not knoweth not God, for God is love.

BY WILLIAM JENNINGS BRYAN

The word "Love" is used in connection with the Apostle John more than in the description of any other of Christ's followers.

He is singled out from among the apostles and described as the disciple whom Jesus loved. The account of the Lord's supper mentions him as "leaning on Jesus' bosom."

He was one of the three with Jesus at the time of the transfiguration. He was the disciple in whose care Christ, speaking from the cross, entrusted His mother. He was the first of the disciples to reach the tomb when they learned of the resurrection, and he is the one in whose gospel love is most frequently mentioned and most emphasized.

For these reasons some have assumed that he was effeminate, a conclusion for which there seems to have been no ground whatever. On the contrary, James and John were called "Boanerges"—which means Sons of Thunder

"John is believed to have been a cousin of Jesus, his mother, Salome, it is throught, was a sister of Mary. Prior to his discipleship, he was a follower of John the Baptist, which indicates that his home training had made him sensitive on the subject of religion.

A WONDERFUL TEXT

John's gospel differs from those of Matthew, Mark and Luke in that he interpreted and expounded, while the others were given more to narrative. John only records six miracles and only one of these is recorded elsewhere. The five found only in John's Gospel were used as illustrations or to show what may be regarded as the highest exhibition of supernatural power.

John's gospel is the one used most in evangelism. One verse—the sixteenth of the third chapter—has probably been the text for more revival sermons than any other verse in the Bible—"For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."

In his first epistle John gives us a definition of God which is universally employed—"God is love; and he that dwelleth in love dwelleth in God, and God in him."

Like his brother James, and Peter and Andrew, John was a fisherman by occupation. He was unlettered—in the Acts Peter and John are even described as "ignorant" as well as "unlearned" But he knew what love was; he could define it and illustrate it. Learning like Paul's could be illumined by love and by love transformed into a force for righteousness, but learning alone is not sufficient.

LOVE AS A TEST

John uses love as a test and by it determines whether one has been born again. "We know that we have passed from death unto life, because we love the brethren."

He goes farther and departs from conventional language so far as to use the word "liar" in describing one who claims to love God and yet does not love his brother. He says, "If a man say, I love God, and hateth his brother, he is a liar."

It is a searching analysis that he makes and it is a numerous class that he arraigns.

Hatred of brother may be considered under several heads, three of which deserve special attention. First, direct injury to brother, such as one is guilty of who violates those of the Ten Commandments that relate to man's duty to his fellow man. No one will question that one shows his hatred of his brother when he kills, steals, bears false witness, or otherwise directly harms his fellow man.

But there is a second form of hatred which is manifested by a much larger group; those who injure their fellow men by indirect action. Two illustrations of this kind will be sufficent to show what is meant.

PURE FOOD LAWS

It was necessary to enact pure food laws to protect customers from those who manufactured food for sale The man who sold the food did not come into contact with the customer who was injured. He had no revenge to satisfy; he had no personal ill will to prompt him; he was simply trying to make his goods more saleable, but in doing so he monaced the health, even the life, of the consumer. The most extreme illustration came to my attention at the time that the pure food law was under consideration.

A wholesale liquor dealer who introduced himself on the train explained to me because it embarrassed his wife and children to be asked about their father's occupation he was trying to get into some other business. He said that he had bought some stock in a candy factory and had thought of gradually working out of the wholesale liquor business into the manufacture of candy. Then he turned to me and, with great earnestness, said:

"But, Mr. Bryan, I found that they used so much adulteration in the manufacture of the candy that I could not stand for it."

So, as a matter of conscience, he preferred the liquor business.

Times have changed since then and food is no longer a menace to health—but it required a law to protect its purity.

THE LARGEST CLASS OF OFFENDERS

The second illustration is to be found in a recent law intended to prevent gambling in farm products. It required thirty years of effort to secure this legislation to protect the farmers—nearly a third of the population—from a handful of gamblers on the boards of trade and chambers of commerce.

The gambler on the market had no special grudge against the farmer; he was intent only on making money; and it did not matter to him if, in the manipulation of the market, injury was brought to both the producer and consumer. He would have come under John's indictment no matter how much he declared his love of God.

The third class is the largest of all—in this class the members show their hatred of brother, not by direct trespass upon his rights, or by doing harm to him indirectly for their own gain, but by indifference.

Christ condemns this class in the parable of the Good Samaritan The priest and Levit who went by without extending help did no injury directly or indirectly to the man who had fallen among thieves; they simply ignored him.

Love compels positive helpfulness.. The Ten Commandments restrain us from doing any wrong act to our fellow men, but it requires something more than negative harmlessness to make a man a Christian. He must do good.

JOHN'S LARGER VISION

If one will study the Gospel of John and live up to it he will understand why Christ preceived in this apostle that which drew forth the love of the Master.

His heart responded to the appeals of John the Baptist; it responded fully and completely to the teachings of Christ. He seemed to catch a larger vision of Christ's spiritual mission than the others; he came closer and closer to the Master until their hearts beat in unison.

It is not strange that he should have been the one who revealed more clearly and most powerfully the Master's appeal to the heart of the world.

Neither is it strange that Christ should have put into John's hands the keeping of his mother when death was about to separate Him from her. It gives us a glimpse of the human side of Christ when in the midst of physical agony He turned to the disciple whom He most loved and to whom he had given the largest share of personal confidence and asked him to be the guardian of the widowed Mary.

We have no record of the death of Mary—her personality was lost in the majestic mission of the Son and Saviour. But this incident, told in a few words, gives a touch of tenderness to that last day when Jesus completed the work that He came to perform and fulfilled the prophecies spoken hundreds of years before His birth and repeated by Him to His disciples.

CHRIST'S TOLERENCE

The text of the lesson gives us an incident that ought to have made a greater impression than it has upon the thought of the world. The lesson of tolerence, taught in the Bible, is set forth by Luke, and is twice repeated in a few verses.

John, seeing some one casting out demons in the names of Jesus, forbade him and reported the matter to Christ. Jesus replied, "Forbid him not: for he that is not against us is for us."

Soon afterward a village of the Samaritans refused to receive certain messengers sent in advance to prepare a place for Christ. When James and John saw this, they said, "Lord, wilt thou that we command fire to come down from heaven and consume them?" Christ turned and rebuked them The Old Version contains two sentences that have been dropped out of the New Version—"Ye know not what manner of spirit ye are of," and "For the Son of man is not come to destroy men's lives, but to save them."

But the rebuke is the same whether expressed in a single word or in more extended language. It excluded the use of force as a method of propogating Christianity or of punishing those who rejected Christ.

FREEDOM OF CONSCIENCE

Here we find the origin of the laws respecting freedom of conscience. Christ's language has not always been regarded by Christians, but there is nothing in the words of the Saviour to justify the prosecution of those who are deaf to His appeal.

Christ's gospel was intended for all and His appeal is to all—"Come unto me, all ye that labor and are heavy laden"—but the call is an invitation extended by love, not a commandment enforced with penalties. It is not strange that the followers of Christ, so often the victims of violence themselves, should have been human enough to have been revengeful or misguided, but they find in Christ's words and acts no warrant for violence.

When I was in India a Parsee asked me how so many different religions could live together peacefully in the United States, adding that self-government was denied to India on the ground that a multiplicity of religions would make peace impossible.

Christ's teachings on this subject, embodied in law, make it possible for any number of religions or any number of denominations of any religion to live together in peace in this country.

A WONDERFUL GOSPEL

Each individual can worship God according to his own conscience, or refuse to worship God if he so desires:

Each church has a right to determine its own doctrines and to enforce its own discipline, but its discipline ends with exclusion from membership, which is not a punishment, but the exercise of the same religious liberty by the organization that each individual claims for himself.

It was a wonderful gospel that John proclaimed—a God infinite in love sent His Son, our Lord, to save the people from their sins; this Christ made love the basis of His church and gave to mankind, as its rainbow of promise, the coming of an universal brotherhood, resting upon love and operating thru love for the advancement of the welfare of mankind.

Tops Wheat By One Point

CHICAGO — Rogers Hornsby, of the St. Louis Cardinals, champion batter of the National League today is topping the list of hitters, with an average of .381, just one point in front of the veteran Zach Wheat of the Brooklyn Dodgers, who has .380, according to averages released today and which include games of last Wednesday. It took the St. Louis star some time to attain his old position at the head of the procession, but he moved upward rapidly when he started hitting against the Boston Braves twirlers. In his last six games Hornsby made 17 hits, three of which were homers.

Jacques Fournier, the former Cardinal, now of Brooklyn, who topped the list a week ago has dropped to third place with an average of .378.

"Cy" Williams, of the Phillies, leads the home run hitters with 22. His total base record has been increased to 172.

Max Carey of the Pirates is showing the way to the run-getters with 67 tallies.

George Grantham of Chicago added two stolen bases to his string and is setting the pace with 22 thefts.

Other leading batters: Roush, Cincinnati, .371: Frisch, New York, .363; O'Farrell, Chicago, .361; Young, New York, .360; Johnston, Brooklyn, .360; Traynor, Pittsburgh .355; Grimm; Pittsburgh, .355; Hollenbacher, Chicago, .349; Bottomley, St. Louis, .348.

RUTH HITS HIGH

"Babe" Ruth of the Yankees is making rapid strides in batting and smashed out a dozen hits in his last six games, boosting his batting average from .363 to .378. He is now runner-up to Harry Heilmann, of Detroit who continues to occupy the lead position with an average of .400 Charles Jamieson, of the Cleveland Indians is third with .372.

Ruth leads in home runs with 20. He is being closely pursued by Kenneth Williams of the Browns, who has 20.

Ruth is leading in total bases with 184 and is showing the way to the run getters, having registered 75 times.

Eddie Collins, of the White Sox, is far in front among the base stealers with 27 thefts.

Other leading batters: Burns, Boston, .363; Witt, New York, .353; Haney, Detroit, .353; E. Collins, Chicago, .350; J. Sewell, Cleveland; .342; J. Harris, Boston, .341; Speaker, Cleveland, .340; Williams, St. Louis, .329; Miller, Philadelphia, .325

LAMAR LEADS ASSOCIATION

Lamar of Toledo and East Minneapolis are running close for the batting honors in the American Association among players who have participated in 50 or more games. The Toledo slugger is out in front with .388 while his rival is trailing him with .385. Combs of Louisville is third wth .370.

Bunny Brief is leading home run hitters with 17 four baggers. The Kansas City slugger also is leading in total bases with 194 and in runs scored with 80.

Eddie Murphy of Columbus is out in front among base stealers with 24 thefts, while Cooney of Milwaukee had pilfered 20 sacks. Other leading batters:

G. Wright, Kansas City, .364; Brief, Kansas City, .362; J. Smith, Toledo, .362; Brown, Indianapolis, .357; E. Murphy, Columbus, .353; Hammond, Kansas City, .338; Krueger, Indianapolis, .338; Haas, St. Poul, .336; Nicholson, Toledo, .335; Good, Kansas City, 325.

TOM COMES BACK TO ST. PAUL

When Tommy Gibbons returned to his home town, St. Paul, after standing Jack the Giant Killer Dempsey off for 15 rounds, at Shelby, an enormous crowd greeted him at the railroad station. Tommy was presented with flowers and speeches. Did he like it? Take a look at the smile in the photo of him inset.

Hutchinson; Jones Lead Open

INWOOD, N. Y. — Leading the stars by 8 to 11 strokes, but closely pressed by half a dozen or more "dark horses", Jock Hutchison of Chicago and Bobby Jones, amateur of Atlanta, entered into the final 36 holes play today for the national open championship. Hutchison with a 142 for his 36 holes yesterday stands at the very top of the field with Jones two strokes away.

Hutchison's 142 yesterday was two strokes under par and only the finest sort of golf can beat him if he continues his game today. Gene Sarazen, the title winner at Skokie last year, Walter Hagen, Joe Kirkwood, MacDonald Smith and others of the stars who had only ordinary championship play cards yesterday are faced with the difficult task of breaking par for the course today in order to be certain of places in the first five.

As a result of withdrawals yesterday there were only 69 players of the 77 who qualified remaining for the final 36.

Hutchison is paired today with Joe Kirkwood. Jones will play with Sarazen. Cruikshank and Hagen are partners and Francis Ouimet and MacDonald Smith will spend the day together.

Tribe And Cincy Beat Sleepers

NEW YORK — While the Giants slumbered again on the short end of a 10 to 1 score, the Cincinnati Reds menace of the world's champions for first place, revived that danger yesterday by riding roughshod over Philadelphia in a hard-hitting contest which ended with the unusual long score of 21 to 7.

The leaders in the American League, like those in the National, also found a Nemisis in Friday the thriteenth. It took ten innings however, for bad luck to triumph and the Yanks fell before Chicago 4 to 3.

The Red Sox-Detroit game also was an extra inning contest, the Boston team geting an even break on their four game series with the westerners at the end of eleven innings, winning 6 to 4. Washington won from St. Louis, 8-4, but the intersectional score was evened in the league by the victory of Cleveland over Philadelphia, 16 to 7.

In the National League the west made a clean sweep. In addition to the triumph of Pittsburg over the world champions, and the victory of the Reds, St. Louis trounced Boston 10 to 6, and Chicago took the last game of their series with Brooklyn, 5 to 1.

Bremen And Vans To Meet Lima

Lima's Independents with ten victories are all ready for the doubleheader Sunday afternoon which will bring together New Bremen in the first game and Van Wert in the second.

Bremen with a new pitcher, Bill Herman, star of Ohio Wesleyan's team this year, is expecting to show the locals some baseball. Their manager claims that his organization knocked Berry out of the box two years ago but Bernie Halloran will start Berry just to show Bremen where to head in.

Van Wert, too, is quite cocksure of their winning ability. They have defeated some of the best teams in the state and are confident that Lima will lose at least one game Sunday. Ternet will probably draw the pitching assignment with Anderson retrieving.

ANGLES OF THE ANGLING GAME

BY BODAN REEL

PRESERVATION

During the time that Gifford Pinchot was before the American people as Secretary of the Interior his wonderful work in connection with the preservation of the things of nature was the talk of the press and the subject of writers.

Now that he has gone out of public life so far as the nation is concerned people have rather abused the advices which he expounded and the forests are getting back to the place where a crisis is inevitable However, in Pennsylvania where Pinchot is governor the timber lands are being taken care of with diligence and the result is that that state has lands which rank with the best.

Sportsmen, if they be worthy of that name, must become educated to the fact that the woods and waters are the playgrounds of nature and should be held in reverence. Until they do the full good of a camping or fishing trip will not be evident.

Carelessness has been to frequent in reference to the forest lands of our country. If the hunters are so forgetful as to leave burning stubs of cigarettes and smouldering campfires to the will of the gods the ultimate results will be forest fires that cannot be handled And every forest fire makes it harder for the other trees to grow. Science has proved this. It is apparent therefore that more care on the part of sportsmen will be of value to the lovers of nature as well as nature itself.

Locos Will Play Ohio Power

The last games of the third round of the Industrial League will be played at Murphy-st park this afternoon when the Loco will meet the Ohio Power and the Cranes will hook up with the Lake Erie.

At present the Cranes and Locos are tied for first with 3 wins and 2 losses each. The Locos should have an easy time of it with the Powers and since it is expected that the Cranes will have a battle with the Eries the Loco team might regain it's place as leader of the league.

Probable battery selections are: Locos, King, Boop and Shrider; Ohio Power, Hogan or Burke; Cranes, Hughes and Keller, Lake Eries, T. Cunningham and R. Cunningham. Detrick and Burdette will umpire.

Pigskin Men Will Meet Wednesday

Central High school pigskin aspirants will meet at the school, Wednesday evening at 7:30 p. m. to sign up for football camp, Coach R. J. Thelbert announced Thursday.

Around 50 boys are expected to be present at the meet ready to signify their intentions of going to camp. All Central High school boys who are anxious to try for football honors next year are requested to be at the meeting.

LIQUOR CHARGE IS DENIED

Man and Woman Charged With Possession Plead Not Guilty

Mr. and Mrs. Fred Glanz, who were arersted by police and county officials Friday during a raid on the Baker farm, seven miles northeast of Lima, resulting in confiscation of a 30-gallon still and 20 gallons of alleged liquor, appeared in criminal court Saturday and pleaded not guilty. Judge E. M. Botkin set their bonds at $1,000 each to appear for hearing next Thursday at 1:30 p. m.

When police and county officers searched the farm rented by Glanz it is said they found the still secreted in a tree and the supposed liquor lying in a keg and jugs in the corn field.

The still is one of the largest confiscated by officers in several months an dis declared to be complete in every way.

NEW YORK — Speculative sentiment unquestionably was better in Saturday's brief session of the stock market but the upward movement failed to attract outside buying by professional traders.

In fact only a languid interest was displayed in the course of prices and the absence of many traders over the week-end reduced dealings to nominal proportions.

A number of stocks improved one to two points with motor accessories, equipments, chemicals, tobacco and minor steel issues making the best showing.

The closing was firm.

Sales approximated 200,000 shares.

PRODUCE REVIEW

(By SWIFT & CO.)

Egg production is falling off and lighter collections have resulted in better market, with slightly higher prices both in producing and consuming centers.

The movement of poultry is not excessive, and the lighter receipts caused a better feeling on live fowl. The market in New York advanced to 27 cents, and has held fairly steady all week at this figure.

Quotations on dressed poultry did not respond to the strength of the live market. There has been a draggy market and prices have not been satisfactory.

Surplus stocks of frozen poultry are not being reduced as fast as the trade anticipated.

Live broilers are in good demand for current use and for feeding purposes ,and prices have been well-sustained, altho any marked increase in the movement would bring about lower values.

The production of butter has not fallen off, as is usual at this time of the year; in fact, the make is greater than a year ago. The shortage in the warehouses ahs been discounted. With prospects of continual imports of foreign butter and increase in the make, buqers have been less anxious for stock, and the market has eased off. Ninety score Standards are quoted at 36 3-4 cents in Chicago today as compared with 36 1-2 cents a week ago and 34 3-4 cents a year ago.

The U. S. Department of Agriculture, in its preliminary report issued on July 9, shows the following holdings of butter and eggs in storage:

July 1, 1922, eggs: 9,811,000 cases; butter 67,410,000 pounds.

July 1, 1923, eggs: 10,213,000 cases; butter 62,442,000 pounds.

Five year average, eggs: 7,661,-000 cases: butter 64,245,000 pounds.

AUTO TOURISTS INCREASE

Chicago Club Statistics Show 14 Per Cent More Travel

CHICAGO — (Associated Press) — There has been approximately 14 per cent more travel by touring automobiles thru the Central States, both east and west bound, during the first five months of this year than during the corresponding months of last year, according to statistics compiled by the Chicago Automobile club.

During the first five months in 1923, 17,448 motorists registered at the Chicago club, as compared with 15,153 during the first five months of 1928.

The answers to the call of the road began in January, when 1,960 tourists registered. This was 50 per cent more than in 1922 when 1,308 tourists stopped at the club during January. The travel continued heavy during February, when 1,276 registered as compared with 1,009 during February, 1922. The March figures were: 2,023 in 1923 and 1,594 in 1922. In April 3,916 registered as compared with 3,-862 in April, 1922.

The increase jumped again in May when 8,268 tourists registered as compared with 7,380 in May, 1922.

MARSHALL FIELD REVIEW

Marshall Field & Company, in their weekly review of the wholesale dry goods trade, say:

Current wholesale distribution of dry goods was slightly less than a year ago during the same period, but was considerably in excess of last week.

Road sales did not reach the total of the corresponding period a year ago due to the fact that a greater percentage of the road sales force was on vacation than during 1922 at this time. Decided improvement was shown, however, over the total for last week.

There were more customers in the market than last year during the same week.

Collections increased over the corresponding period of last year.

Business for the first six months of 1923 showed a very decided impovement over the same period in 1922.

Orders taken for delivery after July 1st were 25 per cent in excess of the total for the corresponding six months last year; cancellations are at minimum, indicating that merchants have confidence in the prospects for good busness during the coming six months.

WHEAT PRICES ON DOWN MOVE

Drop Due to Favorable Crop Prospects in Northwest

MARKET IS HEAVY AT CLOSE

Corn Also on the Decline, With Weak Finish

CHICAGO — Favorable crop prospects in the northwest, together with downturns in Liverpool quotations, caused wheat prices to decline here Saturday during the early dealings. Around 99 cents for September delivery, however, buying increased and the market rallied. Bulls pointed out that altho this year's wheat crop in the United States is at present officially estimated to be 41,000,000 bushels less than last year, the two leading surplus states, North Dakota and Kansas, together have 75,000,000 bushels less than last year. Opening prices which ranged from 3-8 to 7-8c lower with September 99c to 99 1-4 and December $1.01 3-4 to 1.02 were followed by a moderate upturn and then some wavering.

Dry hot weather in the southwest gave relative firmness to the corn market and indirectly to oats. After opening unchanged to 3-8c lower; September 76 to 76 1-4, corn prices scored gains, December delivery in particular.

Oats started unchanged to 1-8c higher, September 34 3-8, sagged a little and then made a small advance all arodund.

Provisions were steady in line with hog values.

The corn close was weak at the same as Friday's finish to 1 3-8c lower, September 75 at 75 1-8 to 75 1-8.

The wheat close was heavy, 1 1-4 to 1 5-8 net lower with September 98 1-8 to 98 1-4 and December $1.01 1-8 to 1.01 1-4.

SULTAN OF LOOT MYSTIFIES

(Continued From Page One)

and prowlers working alone and displaying their individual methods?"

MASQUERADOR SIGHTED

First report concerning the man in woman's clothes came from Mrs. James White, 416 S. Charles-st shortly after 8 p. m. Mrs. White saw the person going north on Charles-st and later turn east on Elm-st.

Three minutes later E. G. Dempster, on west Elm-st, called police headquarters and said the man was going west on Elm-st, between Jameson and Cole-st.

When an automobile load of police arrived shortly afterward they patrolled the entire neighborhood but failed to find any trace of the man.

It was a rather unprofitable night for the Sultan of Loot. After prowling around several houses he succeeded in obtaining a gold watch and about $10 in change. These were taken from the home of William Halloran 535 N. West-st.

The robbery was not discovered until Saturday morning.

Mrs. Halloran reports hearing a noise in the house about 5:30 a. m. Saturday and thinking it was her son downstairs she called to him. She said she heard someone make a noise as if rushing from the dining room.

The watch and money were taken from the trousers pocket of Halloran. The ice box had been opened by the intruder and ransacked.

BASKETS MOVED

E. Argo, 843 Bellenfontaine-av called police at 11:02 p. m. Friday, reported someone in the house. Police found that two sewing baskets had been carried from the living room and placed on the porch. Argo said his daughter-in-law may have removed the baskets. Police reported that the house appeared as it it had been entered.

When Mr. and Mrs. M. A. Wagner, 442 S. Charles-st returned home about midnight Friday they found a light burning in their home. They called police telling them they had left the house in darkness.

Police searched the house and examined all of the doors and windows but failed to find anyhing wrong.

A man giving his name as Kilgore, living on E. McKibben-st, called police about 8:40 p. m. Friday and said a colored man was seen peeping into one of the windows. The man was said to be about 5 feet 10 inches tall, and weighed about 160 pounds and his face was terribly wrinkled.

Mrs. Lenore Kerr, 713 N. Metcalf-st, reported a prowler near her home at 10 p. m. Friday.

MILE AND HALF OF HOME WRECKED

(Continued From Page One)

the Hecla, one of the largest in the world, was burned.

The fire was checked at the Tiber hotel and the Hercules works. Fire fighters recruited from the men of the towns, supplemented by the apparatus from Wallace, are staying the flames' advance, tho the whole hillside is a mass of fire and smoke.

Red Cross officials from Wallace have been rushed to Burke with food and clothing for the homeless.

It is said it will take several days to quench the fire, as the huge piles of timber cribbing under the Hecla, nearly a quarter of a mile in length, are a mass of flames.

Railway service to Burke is disrupted, the flames shooting over the tracks and burning the ties.

The origin of the fire is unknown tho many believe that it was started from a spark from a locomotive that passed thru Burke shortly before the fire began.

The mayor and board of trade of Wallace have appointed a relief committee to care for all persons in need of assistance.

The heaviest loss was suffered by the Hecla Mining Company which had all of its surface buildings destroyed. The loss is largely covered by insurance. It is estimated that about forty homes with their contents were destroyed, entailing a loss of $100,000, about 25 per cent covered by insurance. Other losses total approximately $75,000.

PAIR ACCUSED OF BLACKMAIL

(Continued From Page One)

charge of violating the Mann white slave act.

According to federal authorities, the persons arrested are said to have admitted having obtained $10,-000 from Bushnell while he was in Los Angeles in November, 1922. At that time they posed as federal agents and threatened him with arrest, it is alleged.

The first demand of this week was refused by Bushnell, it is stated, and was followed by an offer to compromise for another $10,-000 payment. Private detectives and department of justice agents were called in the case and the arrest of the pair resulted.

Two alleged accomplices in the case are being sought by federal agents, it was said this morning and efforts also are being made to connect the arrested pair with a large gang of alleged blackmailers which has been in operation along the Pacific coast.

In the room of the hotel in Springfield, where Putnam was apprehended a gold badge bearing the inscription "U. S., Federal Inspector," is said to hae been found under the pillow of the bed.

Warrants on which the arrests were made were issued in Cincinnati by United States Commissioner Thomas Gregory. Deputy Marshal Joel Wagner of the Dayton office and Haveth E. Mau, assistant United States district attorney were called to Springfield on the case last evening.

PLEAD NOT GUILTY

SPRINGFIELD, Ohio.—(Associated Press.)—Charged with attempting to extort $10,000 from John L. Bushnell, president of the First National Bank here, and son of former Governor Asa Bushnell, Don Osborne, alias H. L. Putnam, and Rose Cooley, alias Rose Putnam, are being held in Montgomery-co jail, Dayton, under $15,000 bond after arraignment before a United States commissioner last night. Both pleaded not guilty.

Bushnell, alleged innocent victim of the plot, began his day Saturday by avoiding newspaper men religiously. He could not be found or was "not in" when attempts were made to interview him.

The Cooley woman and Osborne were arrested here by government operatives on formal charges of conspiracy to extort blackmail, with the aid of two others who represented themselves as federal men, from Bushnell under threat of prosecution under the Mann white slave act.

Osborne and the woman are said to have threatened the banker with exposure of a framed up charge, but Bushnell refused to pay over the money. Osborne returned to Bushnell's office following his first visit, made another threat and raised his demands to $50,000, federal officials say. In the meantime, Nick Fischer of the Fischer Detective Bureau, had trailed Osborne, the woman and two other men to a local hotel. The two other men are alleged to have represented themselves as federal operatives but they at no time appeared before the banker and tried to make him give in. Two gold-plated badges were found in the room of the two after they had fled following the arrest of Osborne and his woman companion.

REPAIR ASKED BY SPENCERVILLE

(Continued From Page One)

feet of concrete paving extending east and west of Spencerville.

The delegation claims the road is almost impassable and insists on county aid.

"The road is so bad," Neidthardt said, "that a person endangers his life if he drives over it at a rate of speed greater than five to ten miles an hour."

The delegation insists the paving project has been before county commissioners for two years, yet no relief has been extended.

Toy's estimates after a survey totalled $17,000 and the lowest bid received was $16,584.04. Commissioner Thompson told the delegation.

"The bid was too high for the job and as it is our duty to protect the taxpayers we rejected the bid," Thompson said.

MAY READVERTISE

He then suggested re-advertising for bids for the stretch of road in an effort to get the work done at lower cost.

Commissioners Gray and Craig backed his suggestion, Craig showing that under the old bids only one was received under the $17,000 estimate prepared by Toy.

"We must force contractors to enter lower bids," Gray told his audience, "And the only way is to re-advertise."

After the delegation had accepted the commissioner's proposals and promised to present a resolution to Toy asking for revised estimate on the paving, the surveyor was censored by Commissioner Gray.

"Toy," Gray emphasized, "wants unlimited power and we can't get a thing from his office that we can depend on. That is exactly the situation."

"Action is what we are after," Neidthardt asserted, "and we are going to keep after both offices until we get what we want.

MEET REALITIES OF WAR DAYS

(Continued From Page One)

acting on this information the allies opened fire on the German lines at 11:30 o'clock the night of July 14 and the great battle was on. The German batteries laid down their barrage at midnight and before dawn the rockets went up from the front line sentinels that they had seen the German infantry leaving their trenches. The main attack was over on July 17 and various attempts to renew it on the following day were suppressed.

Altho the Germans struck from the Argonne to Chateau Thierry, the brunt was on General Gouraud's front when twenty-four German divisions attacked the Fourth army, composed of seven French and one American division.

Two "buddies" made the reunion realistic of war days when they carried out a pact that they would bathe in the pool at the Soldiers' and Sailors' Monument in Monument Circle at the first Rainbow reunion in Indianapolis, and brought many laughs to the pedestrians when they hopped in and came out the other side just as a policeman hove into sight. In the war days it was no uncommon sight to see a doughboy disporting in the pool.

The election of officers and the naming of a convention city will take place late in the day.

NOTICE OF BOND SALE

Sealed proposals will be received at the office of the Clerk of the Board of Education of the Lima City School District, Allen County, Ohio, at Lima, Ohio, in said County, until 12 o'clock noon on the 31st day of July, 1923, for the purchase of $200,000.00 worth of bonds of said school district of the denomination of $1,000.00 each. Said bonds are issued in accordance with and by virtue of provisions of Sections 7625, 7626, 7627 and 7628 of the General Code of Ohio, and under authority of the vote of the majority of electors at an election held on the 7th day of November, 1922, for the purpose of purchasing the necessary sites and erecting three new fire proof grade school buildings at the following places in said City School District: One new grade school building to be erected south of Kibby Street, one new grade school building to be erected on the Faurot site at the South West corner of West Elm and McDonel Streets, and one new grade school building to be erected west of Jameson Avenue, and for the purpose of enlarging South High School Building and enlarging Franklin School Building. Said bonds are to be dated as of July 15, 1923, are numbered from one (1) to two hundred (200), both numbers inclusive $8,000.00 of said bonds are due and payable January 15th in each of the years from 1925 until 1940, both numbers inclusive, and $9,000.00 of said bonds shall be due and payable in each of the years from 1941 to 1948, both numbers inclusive. All of said bonds shall bear interest at the rate of five (5) per cent per annum, interest payable semi-annually on the 15th day of January and July in each year beginning July 15, 1924. Said bonds and the interest thereon shall be paid at the bank which is designated as the depository for the school funds of said district. Said bonds shall be sold to the highest bidder for not less than par and accrued interest. All bidders must state the amount of bonds bid for, the gross amount they will pay for the same, including premiums and accrued interest to date of delivery. All bids must be accompanied by a certified check payable to the Clerk-Treasurer of said school district for 1% of the amount of bonds bid for. Said Clerk-Treasurer will return the certified checks immediately to all bidders whose bids are not accepted. The check of such bidder or bidders whose bids are accepted shall be delivered to the Board of Education, to be held by it until the bonds bid upon are paid for. Unless the bidder whose bid is accepted pays for the bonds bid upon within twenty (20) days from the time of the award, the certified check shall become the property of the Board of Education. Bidders must endorse on the envelope containing such sealed bids the name and address of the bidder and mail or hand same to the Clerk on or before the time and date above mentioned.

LIQUOR CHARGE IS DENIED

Man and Woman Charged With Possession Plead Not Guilty

Mr. and Mrs. Fred Glanz, who were arersted by police and county officials Friday during a raid on the Baker farm, seven miles northeast of Lima, resulting in confiscation of a 30-gallon still and 20 gallons of alleged liquor, appeared in criminal court Saturday and pleaded not guilty. Judge E. M. Botkin set their bonds at $1,000 each to appear for hearing next Thursday at 1:30 p. m.

When police and county officers searched the farm rented by Glanz it is said they found the still secreted in a tree and the supposed liquor lying in a keg and jugs in the corn field.

The still is one of the largest confiscated by officers in several months an dis declared to be complete in every way.

NEW YORK — Speculative sentiment unquestionably was better in Saturday's brief session of the stock market but the upward movement failed to attract outside buyment by professional traders.

In fact only a languid interest was displayed in the course of prices and the absence of many traders over the week-end reduced dealings to nominal proportions.

A number of stocks improved one to two points with motor accessories, equipments, chemicals, tobacco and minor steel issues making the best showing.

The closing was firm.

Sales approximated 200,000 shares.

PRODUCE REVIEW

(By SWIFT & CO.)

Egg production is falling off and lighter collections have resulted in better market, with slightly higher prices both in producing and consuming centers.

The movement of poultry is not excessive, and the lighter receipts caused a better feeling on live fowl. The market in New York advanced to 27 cents, and has held fairly steady all week at this figure.

Quotations on dressed poultry did not respond to the strength of the live market. There has been a draggy market and prices have not been satisfactory.

Surplus stocks of frozen poultry are not being reduced as fast as the trade anticipated.

Live broilers are in good demand for current use and for feeding purposes ,and prices have been well-sustained, altho any marked increase in the movement would bring about lower values.

The production of butter has not fallen off, as is usual at this time of the year; in fact, the make is greater than a year ago. The shortage in the warehouses ahs been discounted. With prospects of continual imports of foreign butter and increase in the make, buqers have been less anxious for stock, and the market has eased off. Ninety score Standards are quoted at 36 3-4 cents in Chicago today as compared with 36 1-2 cents a week ago and 34 3-4 cents a year ago.

The U. S. Department of Agriculture, in its preliminary report issued on July 9, shows the following holdings of butter and eggs in storage:

July 1, 1922, eggs: 9,811,000 cases; butter 67,410,000 pounds.

July 1, 1923, eggs: 10,213,000 cases; butter 62,442,000 pounds.

Five year average, eggs: 7,661,-000 cases; butter 64,245,000 pounds.

AUTO TOURISTS INCREASE

Chicago Club Statistics Show 14 Per Cent More Travel

CHICAGO — (Associated Press) — There has been approximately 14 per cent more travel by touring automobiles thru the Central States, both east and west bound, during the first five months of this year than during the corresponding months of last year, according to statistics compiled by the Chicago Automobile club.

During the first five months in 1923, 17,443 motorists registered at the Chicago club, as compared with 15,153 during the first five months of 1923.

The answers to the call of the road began in January, when 1,960 tourists registered. This was 50 per cent more than in 1922 when 1,308 tourists stopped at the club during January. The travel continued heavy during February, when 1,276 registered as compared with 1,009 during February, 1922. The March figures were: 2,023 in 1923 and 1,594 in 1922. In April 3,916 registered as compared with 3,-862 in April, 1922.

The increase jumped again in May when 8,268 tourists registered as compared with 7,380 in May, 1922.

MARSHALL FIELD REVIEW

Marshall Field & Company, in their weekly review of the wholesale dry goods trade, say:

Current wholesale distribution of dry goods was slightly less than a year ago during the same period, but was considerably in excess of last week.

Road sales did not reach the total of the corresponding period a year ago due to the fact that a greater percentage of the road sales force was on vacation than during 1922 at this time. Decided improvement was shown, however, over the total for last week.

There were more customers in the market than last year during the same week.

Collections increased over the corresponding period of last year.

Business for the first six months of 1923 showed a very decided impovement over the same period in 1922.

Orders taken for delivery after July 1st were 25 per cent in excess of the total for the corresponding six months last year; cancellations are at minimum, indicating that merchants have confidence in the prospects for good busness during the coming six months.

WHEAT PRICES ON DOWN MOVE

Drop Due to Favorable Crop Prospects in Northwest

MARKET IS HEAVY AT CLOSE

Corn Also on the Decline, With Weak Finish

CHICAGO — Favorable crop prospects in the northwest, together with downturns in Liverpool quotations, caused wheat prices to decline here Saturday during the early dealings. Around 99 cents for September delivery, however, buying increased and the market rallied. Bulls pointed out that altho this year's wheat crop in the United tSates is at present officially estimated to be 41,000,000 bushels less than last year, the two leading surplus states, North Dakota and Kansas, together have 75,000,000 bushels less than last year. Opening prices which ranged from 3-8 to 7-8c lower with September 99c to 99 1-4 and December $1.01 3-4 to 1.02 were followed by a moderate upturn and then some wavering.

Dry hot weather in the southwest gave relative firmness to the corn market and indirectly to oats. After opening unchanged to 3-8c lower; September 76 to 76 1-4, corn prices scored gains, December delivery in particular.

Oats started unchanged to 1-8c higher, September 34 3-8, sagged a little and then made a small advance all arodund.

Provisions were steady in line with hog values.

The corn close was weak at the same as Friday's finish to 1 3-8c lower, September 75 at 75 1-8 to 75 1-8.

The wheat close was heavy, 1 1-4 to 1 5-8 net lower with September 98 1-8 to 98 1-4 and December $1.01 1-8 to 1.01 1-4.

SULTAN OF LOOT MYSTIFIES

(Continued From Page One)

and prowlers working alone and displaying their individual methods?"

MASQUERADOR SIGHTED

First report concerning the man in woman's clothes came from Mrs. James White, 416 S. Charles-st shortly after 8 p. m. Mrs. White saw the person going north on Charles-st and later turn east on Elm-st.

Three minutes later E. G. Dempster, on west Elm-st, called police headquarters and said the man was going west on Elm-st, between Jameson and Cole-st.

When an automobile load of police arrived shortly afterward they patrolled the entire neighborhood but failed to find any trace of the man.

It was a rather unprofitable night for the Sultan of Loot. After prowling around several houses he succeeded in obtaining a gold watch and about $10 in change. These were taken from the home of William Halloran 535 N. West-st.

The robbery was not discovered until Saturday morning.

Mrs. Halloran reports hearing a noise in the house about 5:30 a. m. Saturday and thinking it was her son downstairs she called to him. She said she heard someone make a noise as if rushing from the dining room.

The watch and money were taken from the trousers pocket of Halloran. The ice box had been opened by the intruder and ransacked.

BASKETS MOVED

E. Argo, 843 Bellenfontaine-av called police at 11:02 p. m. Friday, reported someone in the house. Police found that two sewing baskets had been carried from the living room and placed on the porch. Argo said his daughter-in-law may have removed the baskets. Police reported that the house appeared as it it had been entered.

When Mr. and Mrs. M. A. Wagner, 442 S. Charles-st returned home about midnight Friday they found a light burning in their home. They called police telling them they had left the house in darkness.

Police searched the house and examined all of the doors and windows but failed to find anyhing wrong.

A man giving his name as Kilgore, living on E. McKibben-st, called police about 8:40 p. m. Friday and said a colored man was seen peeping into one of the windows. The man was said to be about 5 feet 10 inches tall, and weighed about 160 pounds and his face was terribly wrinkled.

Mrs. Lenore Kerr, 713 N. Metcalf-st, reported a prowler near her home at 10 p. m. Friday.

MILE AND HALF OF HOME WRECKED

the Hecla, one of the largest in the world, was burned.

The fire was checked at the Tiber hotel and the Hercules works. Fire fighters recruited from the men of the towns, supplemented by the apparatus from Wallace, are staying the flames' advance, tho the whole hillside is a mass of fire and smoke.

Red Cross officials from Wallace have been rushed to Burke with food and clothing for the homeless.

It is said it will take several days to quench the fire, as the huge piles of timber cribbing under the Hecla, nearly a quarter of a mile in length, are a mass of flames.

Railway service to Burke is disrupted, the flames shooting over the tracks and burning the ties.

The origin of the fire is unknown tho many believe that it was started from a spark from a locomotive that passed thru Burke shortly before the fire began.

The mayor and board of trade of Wallace have appointed a relief committee to care for all persons in need of assistance.

The heaviest loss was suffered by the Hecla Mining Company which had all of its surface buildings destroyed. The loss is largely covered by insurance. It is estimated that about forty homes with their contents were destroyed, entailing a loss of $100,000, about 25 per cent covered by insurance. Other losses total approximately $75,000.

PAIR ACCUSED OF BLACKMAIL

(Continued From Page One)

charge of violating the Mann white slave act.

According to federal authorities, the persons arrested are said to have admitted having obtained $10,-000 from Bushnell while he was in Los Angeles in November, 1922. At that time they posed as federal agents and threatened him with arrest, it is alleged.

The first demand of this week was refused by Bushnell, it is stated, and was followed by an offer to compromise for another $10,-000 payment. Private detectives and department of justice agents were called in the case and the arrest of the pair resulted.

Two alleged accomplices in the case are being sought by federal agents, it was said this morning and efforts also are being made to connect the arrested pair with a large gang of alleged blackmailers which has been in operation along the Pacific coast.

In the room of the hotel in Springfield, where Putnam was apprehended a gold badge bearing the inscription "U. S., Federal Inspector," is said to hae been found under the pillow of the bed.

Warrants on which the arrests were made were issued in Cincinnati by United States Commissioner Thomas Gregory. Deputy Marshal Joel Wagner of the Dayton office and Haveth E. Mau, assistant United States district attorney were called to Springfield on the case last evening.

PLEAD NOT GUILTY

SPRINGFIELD, Ohio.—(Associated Press)—Charged with attempting to extort $10,000 from John L. Bushnell, president of the First National Bank here, and son of former Governor Asa Bushnell, Don Osborne, alias H. L. Putnam, and Rose Cooley, alias Rose Putnam, are being held in Montgomery-co jail, Dayton, under $15,000 bond after arraignment before a United States commissioner last night. Both pleaded not guilty.

Bushnell, alleged innocent victim of the plot, began his day Saturday by avoiding newspaper men religiously. He could not be found or was "not in" when attempts were made to interview him.

The Cooley woman and Osborne were arrested here by government operatives on formal charges of conspiracy to extort blackmail, with the aid of two others who represented themselves as federal men, from Bushnell under threat of prosecution under the Mann white slave act.

Osborne and the woman are said to have threatened the banker with exposure of a framed up charge, but Bushnell refused to pay over the money. Osborne returned to Bushnell's office following his first visit, made another threat and raised his demands to $50,000, federal officials say. In the meantime, Nick Fischer of the Fischer Detective Bureau, had trailed Osborne, the woman and two other men to a local hotel. The two other men are alleged to have represented themselves as federal operatives but they at no time appeared before the banker and tried to make him give in. Two gold-plated badges were found in the room of the two after they had fled following the arrest of Osborne and his woman companion.

REPAIR ASKED BY SPENCERVILLE

(Continued From Page One)

feet of concrete paving extending east and west of Spencerville.

The delegation claims the road is almost impassable and insists on county aid.

"The road is so bad," Neldthardt said, "that a person endangers his life if he drives over it at a rate of speed greater than five to ten miles an hour."

The delegation insists the paving project has been before county commissioners for two years, yet no relief has been extended.

Toy's estimates after a survey totalled $17,000 and the lowest bid received was $16,584.04, Commissioner Thompson told the delegation.

"The bid was too high for the job and as it is our duty to protect the taxpayers we rejected the bid," Thompson said.

MAY READVERTISE

He then suggested re-advertising for bids for the stretch of road in an effort to get the work done at lower cost.

Commissioners Gray nd Craig backed his suggestion, Craig showing that under the old bids only one was received under the $17,000 estimate prepared by Toy.

"We must force contractors to enter lower bids," Gray told his audience, "And the only way is to re-advertise."

After the delegation had accepted the commissioner's proposals and promised to present a resolution to Toy asking for revised estimate on the paving, the surveyor was censored by Commissioner Gray.

"Toy," Gray emphasized, "wants unlimited power and we can't get a thing from his office that we can depend on. That is exactly the situation."

"Action is what we are after," Neldthardt asserted, "and we are going to keep after both offices until we get what we want.

MEET REALITIES OF WAR DAYS

(Continued From Page One)

acting on this information the allies opened fire on the German lines at 11:30 o'clock the night of July 14 and the great battle was on. The German batteries laid down their barrage at midnight and before dawn the rockets went up from the front line sentinels that they had seen the German infantry leaving their trenches. The main attack was over on July 17 and various attempts to renew it on the following day were suppressed.

Altho the Germans struck from the Argonne to Chateau Thierry, the brunt was on General Gouraud's front when twenty-four German divisions attacked the Fourth army, composed of seven French and one American division.

Two "buddies" made the reunion realistic of war days when they carried out a pact that they would bathe in the pool at the Soldiers' and Sailors' Monument in Monument Circle at the first Rainbow reunion in Indianapolis, and brought many laughs to the pedestrians when they hopped in and came out the other side just as a policeman hove into sight. In the war days it was no uncommon sight to see a doughboy disporting in the pool.

The election of officers and the naming of a convention city will take place late in the day.

It does feel good just to Breathe!

The Holland Warm-Air Circulating System does provide good air for healthful, invigorating breathing. It is the kind of air that makes you want to stretch out your arms in pure joy, just to breathe as deeply as you possibly can.

The Holland System is not only replacing hundreds upon hundreds of hot-water, steam and vapor systems, but also just as many hot-air furnaces that, old or new, fail to provide the satisfaction that goes with the Holland System.

"Oh Daddy, it feels good just to breathe, now that we have a Holland Warm Air Circulating System."

The Preponderance Of Evidence

OVER 2000 HOLLAND FURNACES IN USE IN LIMA AND VICINITY

Holland Furnaces Make Warm Friends

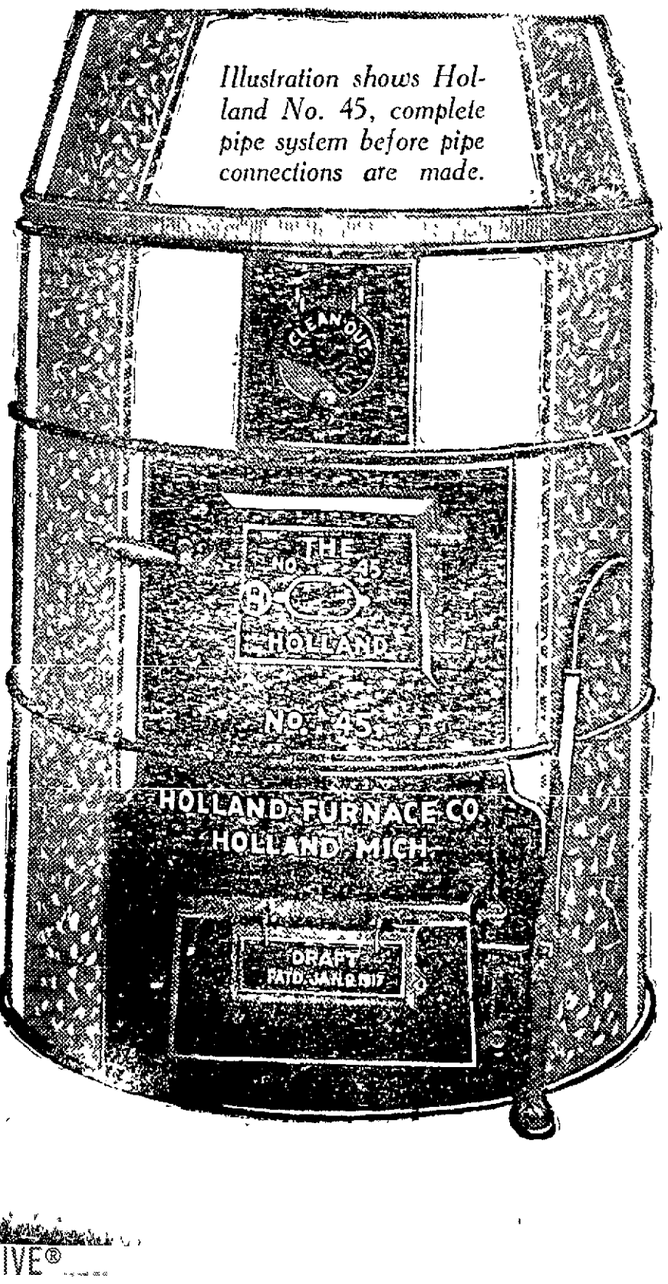

Illustration shows Holland No. 45, complete pipe system before pipe connections are made.

It is true that the Holland System is the most economical. But judging from a careful analysis of sales, the replacement is due primarily to the Holland's excellent provision for air circulation and humidity.

It is not strange that the Holland excels in sales when it excels in the advantages of comfort, convenience and economy—the very things that the home-owner pays for when he buys a heating system.

Remember, no matter how handsome your house may be—it is never a "home" until it is comfortably heated and ventilated. The Holland adds that final touch of solid comfort to home happiness. It makes every room livable, inviting and cheery. It makes for health through proper air circulation.

There is one right way to buy a heating system for your home. Buy it yourself! And if your home is already built, buy it in your home. Buy from a representative of a proven concern; one able to shoulder all the responsibility. And get the factory price!

Holland men are not only heating experts. They are gentlemen; the kind of men whom folks like to meet in their homes. Holland men receive a special training in home heating and ventilation. You may have full confidence in the advice and information they give you because their recommendations are backed by the guarantee of this company.

You can waste many tons of good fuel and burn up a lot of real money through the inefficiency of a poor furnace. And it's strange indeed why so many hard-headed business men, wise in every other thing, will stand for such waste and accept "any old furnace" without personal investigation before buying. A little time spent in looking into the merits of the Holland System in advance will add much to your comfort and spare many a drain on your pocket-book later on.

Right now—before cold weather—is a good time to take care of your furnace problem. Make sure of your installation by calling up the Lima Holland Branch today, or writing the General Office. Asking for information will not obligate you in the least.
